Issuing Authority (circle one):

1. Board of Health 2. Building Department 3. City/Town Clerk 4. Licensing Board 5. Selectmen's Office
6. Other _____

Contact Person: _____ Phone #: _____

Information and Instructions

Massachusetts General Laws chapter 152 requires all employers to provide workers' compensation for their employees. Pursuant to this statute, an **employee** is defined as "...every person in the service of another under any contract of hire, express or implied, oral or written."

An **employer** is defined as "an individual, partnership, association, corporation or other legal entity, or any two or more of the foregoing engaged in a joint enterprise, and including the legal representatives of a deceased employer, or the receiver or trustee of an individual, partnership, association or other legal entity, employing employees. However, the owner of a dwelling house having not more than three apartments and who resides therein, or the occupant of the dwelling house of another who employs persons to do maintenance, construction or repair work on such dwelling house or on the grounds or building appurtenant thereto shall not because of such employment be deemed to be an employer."

MGL chapter 152, §25C(6) also states that **"every state or local licensing agency shall withhold the issuance or renewal of a license or permit to operate a business or to construct buildings in the commonwealth for any applicant who has not produced acceptable evidence of compliance with the insurance coverage required."** Additionally, MGL chapter 152, §25C(7) states "Neither the commonwealth nor any of its political subdivisions shall enter into any contract for the performance of public work until acceptable evidence of compliance with the insurance requirements of this chapter have been presented to the contracting authority."

Applicants

Please fill out the workers' compensation affidavit completely, by checking the boxes that apply to your situation and, if necessary, supply your insurance company's name, address and phone number along with a certificate of insurance. Limited Liability Companies (LLC) or Limited Liability Partnerships (LLP) with no employees other than the members or partners, are not required to carry workers' compensation insurance. If an LLC or LLP does have employees, a policy is required. Be advised that this affidavit may be submitted to the Department of Industrial Accidents for confirmation of insurance coverage. **Also be sure to sign and date the affidavit.** The affidavit should be returned to the city or town that the application for the permit or license is being requested, **not** the Department of Industrial Accidents. Should you have any questions regarding the law or if you are required to obtain a workers' compensation policy, please call the Department at the number listed below. Self-insured companies should enter their self-insurance license number on the appropriate line.

City or Town Officials

Please be sure that the affidavit is complete and printed legibly. The Department has provided a space at the bottom of the affidavit for you to fill out in the event the Office of Investigations has to contact you regarding the applicant. Please be sure to fill in the permit/license number which will be used as a reference number. In addition, an applicant that must submit multiple permit/license applications in any given year, need only submit one affidavit indicating current policy information (if necessary). A copy of the affidavit that has been officially stamped or marked by the city or town may be provided to the applicant as proof that a valid affidavit is on file for future permits or licenses. A new affidavit must be filled out each year. Where a home owner or citizen is obtaining a license or permit not related to any business or commercial venture (i.e. a dog license or permit to burn leaves etc.) said person is NOT required to complete this affidavit.

The Office of Investigations would like to thank you in advance for your cooperation and should you have any questions, please do not hesitate to give us a call.

105 CMR: DEPARTMENT OF PUBLIC HEALTH

590.009: continued

- (3) Mobile food operations equipped with an adequate water and waste system to facilitate handwashing and the cleaning and sanitizing of utensils may prepare potentially hazardous foods requiring limited preparation for immediate service, provided that any advanced food preparation, if necessary, is conducted by the mobile operator in a licensed food establishment.
- (4) Mobile food operations shall provide only single-service articles for use by the consumer.
- (5) Condiments, cream and sugar shall be served only from a sanitary dispenser or in individually wrapped servings.
- (6) Mechanical refrigeration or insulated containers with ice or gel packs must be used to maintain product temperature for pre-packaged, ready-to-eat foods which are required to be held at or below 45° F (7° C) or 41° F (5° C). The storage of packaged food in contact with water or undrained ice is prohibited. Wrapped ready-to-eat foods such as sandwiches shall not be stored in direct contact with ice. Effective July 1, 2005, all mobile food operations selling or distributing ready-to-eat PHFs must be equipped with mechanical refrigeration that can maintain PHFs at or below 41° F (5° C).
- (7) Bulk food shall not be used unless purchased from an approved source. Bulk PHFs, with the exception of frozen desserts, must be sold or served on the same day as purchased. All hot food shall be discarded if not used or sold by the end of the day.
- (8) A convenient hand-washing facility must be available on site for employee hand-washing whenever handling unpackaged foods. This facility shall consist of at least sufficient warm running water, soap and individual paper towels. The board of health may approve the use of chemically treated towelettes in lieu of hand-washing facilities if only frankfurters, non-potentially hazardous foods and non-perishable foods are served and there is no bare-hand contact. Chemically treated towelettes must be made available for use by customers in self-service operations.
- (9) A sign shall be provided at consumer self-service operations, which states that the use of bare hands by consumers for self-service is prohibited by state law.
- (10) Equipment.
 - (a) Equipment shall be located and installed in a way that prevents food contamination and that also facilitates cleaning the equipment and establishment.
 - (b) Food-contact surfaces of equipment shall be protected from contamination by consumers and other contaminating agents. Effective shields for such equipment shall be provided, as necessary, to prevent contamination. Mobile food operations, which cook or reheat unpackaged food for hot holding shall be fully enclosed unless equipped with air curtains to prevent the contamination of food and food contact surfaces with environmental contaminants.
 - (c) Ware-washing facilities, when required, shall be available in accordance with the FC for cleaning in-use utensils and food contact surfaces.
- (11) Operators of mobile food operations shall obtain the use of adequate and suitable toilet facilities where handwashing facilities are available.
- (12) Mobile food operations shall operate from a fixed, licensed food establishment or food processing plant and shall report at least daily to such locations for all food, water and supplies and for all cleaning and servicing operations. Mobile food operators shall retain the list of ingredients and the receipt for all bulk foods, which must indicate the name of the food item, the date purchased and the name of the approved food source licensed in accordance with 105 CMR 500.000.
- (13) Servicing areas shall be provided with overhead protection except that areas used only for the loading of water, packaged food or the discharge of sewage and other liquid waste, through the use of a closed system of hoses, need not be provided with overhead protection.
- (14) Mobile food operations shall have identification, i.e., person's name and/or business name, city and telephone number in letters not smaller than three inches, on the left and right door panels of the vehicle or on the left and right sides of the trailer or pushcart.

(C) Temporary Food Establishments.

- (1) A temporary food operation shall comply with all applicable requirements of the federal 1999 Food Code, except as otherwise provided in this 105 CMR 590.009(C). The board of health may impose additional requirements to protect against health hazards related to the conduct of the temporary food operation, may prohibit the sale of some or all potentially hazardous foods, and when no health hazard will result, may waive or modify requirements of 105 CMR 590.000 pursuant to the provisions of 105 CMR 590.010(H).

590.009: continued

- (2) Whenever a temporary food establishment is permitted to prepare exposed foods without complying with all the requirements of 105 CMR 590.000, the following requirements are applicable. Only those foods requiring limited preparation, such as hamburgers and frankfurters that only require seasoning and cooking, shall be prepared or served. The preparation of other potentially hazardous foods including pastries filled with cream or synthetic cream, custards, and similar products and salads or sandwiches containing Meat, poultry, eggs or fish is prohibited. This prohibition does not apply to the service of any potentially hazardous food that has been prepared and packaged under conditions meeting the requirements of 105 CMR 590.000, is packaged in individual servings, is stored at or below 45° F (7° C)/41° F (5° C) or at or above 140° F (60° C) in facilities meeting the federal 1999 Food Code requirements for storage, display and transportation and is served directly in the unopened container in which it was packaged.
- (3) Temporary food establishment operators shall comply with the mandatory food protection management certification requirement in accordance with 105 CMR 590.003, except that the board of health may waive the requirement if the sponsor of a temporary event has employed at least one (FTE) person in charge in accordance with 105 CMR 590.003(A), who is:
- (a) Not a vendor; and
 - (b) Responsible for monitoring safe food handling practices and initiating corrective actions to ensure compliance with 105 CMR 590.000.
- (4) Ice that is consumed or that contacts food shall be made under conditions meeting the requirements of FC 3-202.16 and FC 3-303. The ice shall be in chipped, crushed, or cubed form and in single-use safe plastic or wet-strength paper bags filled and sealed at the point of manufacture. The ice shall be held in these bags until it is dispensed in a way that protects it from contamination.
- (5) A convenient handwashing facility must be available for employee handwashing whenever handling unpackaged foods. This facility shall consist of at least sufficient warm running water, soap and individual paper towels. The board of health may approve the use of chemically treated towlettes in lieu of handwashing facilities if:
- (a) Only frankfurters, non-potentially hazardous foods or non-perishable foods are prepared and served and there is no bare-hand contact, or
 - (b) If other foods are served and there is no bare-hand contact.
- (6) Equipment.
- (a) Equipment shall be located and installed in a way that prevents food contamination and that also facilitates cleaning the equipment and establishment.
 - (b) Food contact surfaces of equipment shall be protected from contamination by consumers and other contaminating agents. Effective shields for such equipment shall be provided, as necessary, to prevent contamination.
 - (c) Warewashing facilities, when required, shall be available in accordance with federal 1999 Food Code Chapter 4 for cleaning in-use utensils and food contact surfaces.
- (7) All temporary food establishments without effective facilities for cleaning and sanitizing tableware shall provide only single-service articles for use by the consumer.
- (8) Enough potable water shall be available in the operation for food preparation, for cleaning and sanitizing utensils and equipment, and for handwashing. A heating facility capable of producing enough hot water for these purposes shall be provided on the premises.
- (9) Mechanical refrigeration or insulated containers with ice or gel packs must be used to maintain product temperature for pre-packaged, ready-to-eat foods, which are required to be held at or below 41° F (5° C)/45° F (7° C). The storage of packaged food in contact with water or undrained ice is prohibited. Wrapped ready-to-eat foods such as sandwiches shall not be stored in direct contact with ice.
- (10) Potentially hazardous food, which is re-heated for hot holding, shall be discarded if not used or sold by the end of the day. Temporary food operations designed to dispense hot foods shall be provided with suitable units to rapidly heat foods and to keep such food hot until served.
- (11) All sewage, including liquid waste, shall be disposed of according to law.
- (12) Floors, Walls and Ceilings of Food Preparation Areas.
- (a) Floors shall be constructed of concrete, asphalt, tight wood, or other similar cleanable material kept in good repair. Dirt or gravel, when graded to drain, may be used as subflooring when covered with clean, removable platforms or duckboards, or covered with wood chips, shavings or other suitable materials effectively treated to control dust.

105 CMR: DEPARTMENT OF PUBLIC HEALTH

590.009: continued

(b) Walls and ceilings shall be made of wood, canvas, or other material that protects the interior of the establishment from the weather, dust and debris.

(c) Walls and ceilings of food preparation areas shall be constructed in a way that prevents the entrance of insects. Doors to food preparation areas shall be solid or screened and shall be self-closing. Screening material used for walls, doors, or windows shall be at least 16 mesh to the inch.

(d) Counter-service openings shall not be larger than necessary for the particular operation conducted. These openings shall be provided with tight-fitting solid or screened doors or windows or shall be provided with fans installed and operated to restrict the entrance of flying insects. Counter-service openings shall be kept closed, except when in actual use.

(e) 105 CMR 590.009(3)(12)(c) and (d) do not apply if flying insects and other pests are absent due to the location of the establishment, the weather, or other limiting conditions.

(D) Residential Kitchens.

(1) Residential Kitchens in Bed and Breakfast Homes and Bed and Breakfast Establishments.

(a) All bed and breakfast homes serving full breakfast and bed and breakfast establishments serving full or continental breakfast shall require a food establishment permit and shall comply with the minimum requirements of 105 CMR 590.009(D) as well as the Administration and Enforcement sections (105 CMR 590.010 through 590.021), except they shall be exempt from 105 CMR 590.043, "Plan Submission and Approval" in which case only an intended menu shall be submitted to the board of health with their application for permit. However, bed and breakfast establishments with ten guestrooms or more shall comply with all provisions of 105 CMR 590.000.

(b) Bed and breakfast homes and bed and breakfast establishments, which require a permit, shall be inspected by the board of health upon application for an original permit and within the six months prior to renewal of a permit, and as often as necessary for the enforcement of 105 CMR 590.000.

(c) Food preparation and protection: Residential kitchens in bed and breakfast homes and bed and breakfast establishments.

1. Food shall be prepared and protected in accordance with 105 CMR 590.000.
2. Food, utensils and equipment shall be stored in a manner to avoid contamination.
3. The following food handling practices for potentially hazardous foods are prohibited: cooling and reheating prior to service, hot holding for more than two hours, and service of leftovers.
4. All food temperature requirements shall be met as contained in 105 CMR 590.000. Hot and cold holding equipment shall be provided to maintain potentially hazardous foods at temperatures required by 105 CMR 590.000.

(2) Residential Kitchens: Retail Sale.

(a) A food establishment permit shall be required if food is prepared in or distributed from a residential kitchen for retail sale except as exempted under the definition of food establishment in 105 CMR 590.002 and shall comply with the minimum requirements of 105 CMR 590.009(D) as well as the Administration and Enforcement (105 CMR 590.010 through 590.021), except they shall be exempt from 105 CMR 590.043, "Plan Submission and Approval" in which case only an intended list of food to be prepared or distributed shall be submitted to the board of health with their application for permit. In addition, the following requirements shall be met:

(b) Food Preparation and Protection: Residential Kitchen for Retail Sale.

1. Only non-potentially hazardous foods and foods which do not require refrigeration and a variance in accordance with 105 CMR 590.010(H) shall be prepared in or distributed from a residential kitchen for retail sale to the public except as exempted under the definition of food establishment in 105 CMR 590.002. Ingredients that are potentially hazardous foods, such as milk, cream, and eggs, may be used in food preparation for the public provided that the final product is not a potentially hazardous food.
2. Wholesale operations requiring a food processor registration by the Department shall not be conducted in an establishment holding a residential kitchen permit.
3. Only immediate family members residing in the household may prepare food for retail sale in a residential kitchen.
